**NOT TO DRINK YOUR TAP WATER**

LVMWD is advising residents in the *affected area* to **NOT USE THE TAP WATER FOR DRINKING AND COOKING UNTIL FURTHER NOTICE**. It will take an estimated 3-5 days to complete the water sampling and obtain results.

The *affected area* that is subject to this Notice includes properties served by LVMWD on:

### What should I do?

- **DO NOT DRINK YOUR TAP WATER - USE ONLY BOTTLED WATER.**  
Bottled water should be used for all drinking (including baby formula and juice), brushing teeth, and making ice and food preparation **until further notice**.
- **DO NOT TRY TO TREAT THE WATER YOURSELF.**  
Testing is still underway and potential contaminants have not yet been identified. Boiling, freezing, filtering, adding chlorine or other disinfectants, or letting water stand should not be relied upon to make the water safe.
